**Ink your passion, sketch your dreams,  
colour your life!**

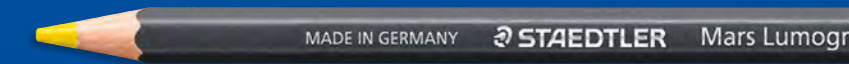

**Mars® Lumograph® –  
The go-to pencil range for pros**

The Mars Lumograph 100 range is STAEDTLER's graphite toolkit for those who take their craft seriously. From the classic 100 with 24 finely tuned degrees, to the ultra-black 100B, rich charcoal 100C, bold jumbo 100J, water-soluble 100A, and the pure woodless 100G – every variant is built for control, expression and professional results. **Please see the product range on page 6.**

**Mars® Lumograph® colour aquarell –  
Highly pigmented watercolour pencils**

The expressive colourist in our Mars Lumograph range – fully water-soluble with a smooth, rich stroke that leaves no residue after blending with water, creating seamless transitions. The richly pigmented leads deliver exceptional lightfastness and intense, vibrant colour. Designed for both, dry and wet techniques, these pencils are available in 120 finely tuned and consistent shades, offering unlimited blending potential and endless colour variations.

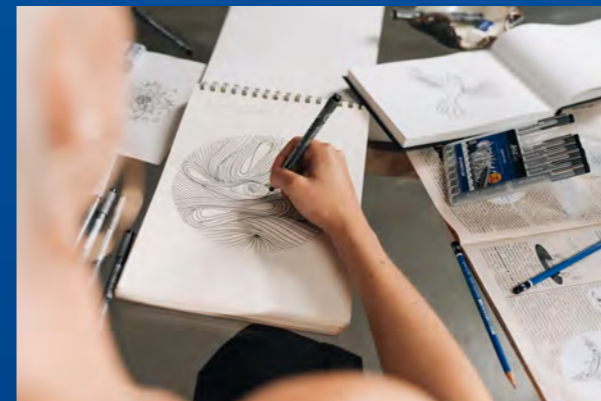

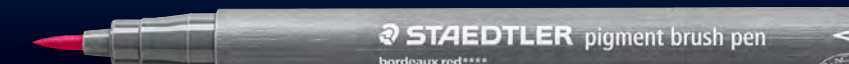

**pigment liner –  
Fineliner with pigmented ink**

The pigment liner offers 12 precise line widths – from 0.05 to 1.2 mm, plus a chisel tip (~0.3–2.0 mm). Its long metal tip makes the fineliner the perfect tool for writing, sketching, and drawing. The pigment ink is waterproof, document-proof, lightfast, erasable on special drawing paper, and can be painted over without bleeding. Particularly practical: It can be left uncapped for at least 12 hours without drying out.

**pigment arts pen –  
Premium India ink pens with assorted tips**

Experience exceptionally brilliant colours and extreme lightfastness with our innovative Multi Ink – a water-based, translucent formula that combines the strengths of multiple ink systems. The pens offer waterproof performance on all kinds of artist paper and even on almost all other surfaces, with no smudging when overpainting and no bleed-through. Choose from up to 60 colours and various tips to match your artistic style, and expand your effects with the colour-neutral Multi Ink blender. **Please see the product range on page 22.**

*Artist* SERIES

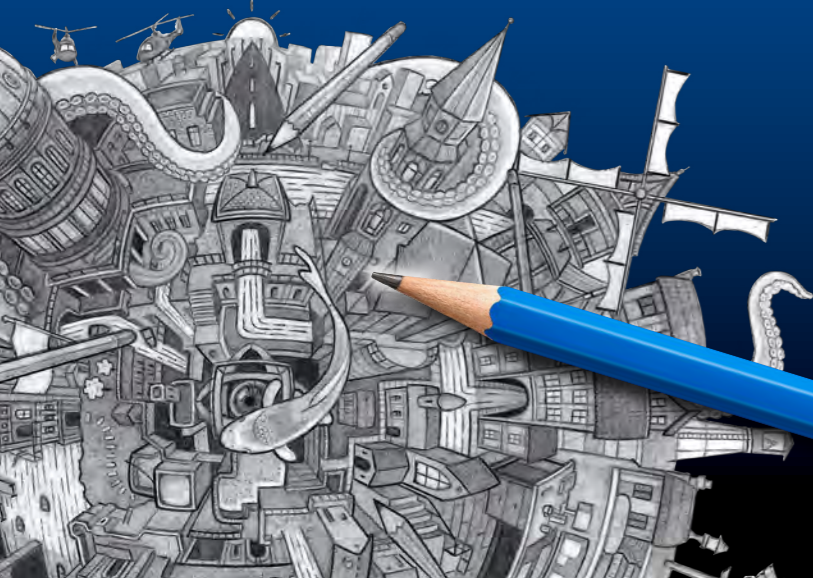

**Signature Quality by STAEDTLER**

With roots dating back to 1662 and founded in 1835, STAEDTLER has a long tradition of innovation and craftsmanship in writing and drawing instruments. For centuries, our passion has been to support creative minds with tools they can trust.

This rich heritage flows directly into the STAEDTLER Artist Series – where uncompromising quality meets boundless creativity.

Designed for those who demand the best, each tool is engineered with precision to bring your imagination to life and meet the highest demands. Whether you're sketching, drawing, or illustrating, our products deliver unmatched quality, empowering you to create your masterpiece. With superior features and performance, every stroke brings you closer to brilliance.

Elevate your art – because with Signature Quality by STAEDTLER, the only limit is your imagination.

« Bring your ideas to life:  
The waterproof pigment liner 308 is the  
perfect fineliner for ultra-fine details to  
expressive drawings. »

## pigment liner 308

- Fineliner for writing, sketching and drawing
- Pigment ink, indelible (in accordance with ISO 12757-2), lightfast, waterproof on paper
- CAP OFF – can be left uncapped for at least 12 hours without drying up (only black ink)
- Erasable when used on drafting paper (only black ink), no bleeding when highlighted
- Long metal tip, ideal for use with templates (from line width 0.1 mm) and rulers (from line width 0.2 mm) e.g. Mars 572 FL
- PP barrel guarantees long service life
- Airplane-safe - automatic pressure equalization prevents pen from leaking on board aircraft
- Available in stand-up STAEDTLER box

Colour brilliance  
meets outstanding  
lightfastness

« It is important to me that the ink is waterproof and lightfast, and that the pens can be easily combined with other materials and techniques. »

Felix  
Scheiberger

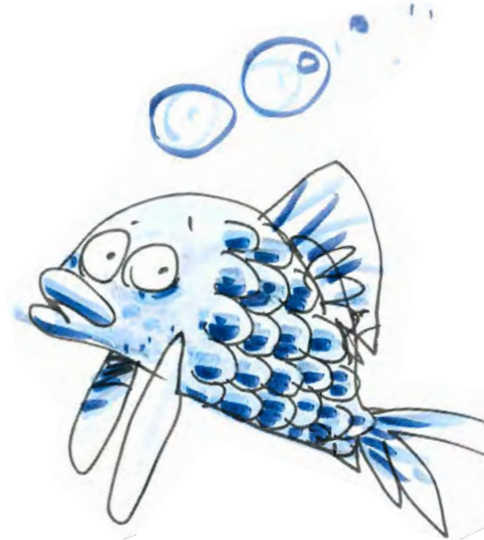

Spotlight  
on our Heroes

## pigment brush pen 371

- Premium India ink pens with brush tip and the innovative Multi Ink
- Easily controllable, stable brush nib
- For variable line widths
- Ideal for hand lettering, sketches, drawings, illustrations, and colouring
- Multi Ink – water-based, translucent India ink made with high-quality pigments, combining a variety of outstanding properties
- Extreme lightfastness and exceptional colour brilliance simultaneously – no colour change and no fading, even after years of exposure to light
- Lightfastness of each colour classified in accordance with blue wool scale and grey scale (DIN EN ISO 105-B01, DIN 16525, DIN EN 20105-A02)
- Smudge-free overpainting once the ink has fully dried
- Ink does not bleed or show through the paper
- Highly versatile – suitable for all types of artist paper and almost all other surfaces
- Fast-drying and retains true colour on almost all surfaces
- Particularly suitable for mixed media techniques
- Permanent and waterproof
- For even more versatile applications: The colour-neutral blender 893 or 893 BP can be used to dissolve the permanent Multi Ink
- Made in Germany
- Available in 60 colours

# Why choose the STAEDTLER Artist Series?

The STAEDTLER Artist Series is a premium collection of artist-grade tools with outstanding features, crafted for those who demand precision, performance, and expressive freedom in every stroke. This range combines innovative technology with exceptional usability across a wide variety of techniques and surfaces.

Discover more about our Artist Series:

Reflecting our commitment to quality and excellence all our pigment arts pens are made in Germany.

The lightfastness of each of our colours is classified in accordance with blue wool scale and grey scale (DIN EN ISO 105-B01, DIN 16525, DIN EN 20105-A02). Our own 5-star system simplifies this for you – just have a look at the barrel of the pen!

\*\*\* good lightfastness  
 \*\*\*\* very good lightfastness  
 \*\*\*\*\* maximum lightfastness

By the way, each pigment arts pen and Mars Lumograph colour aquarell includes the colour name and lightfastness rating on the barrel.

We value sustainability! That is why the barrel, cap & end cap of all our pigment brush pens are made of 97% recycled plastic!

## What's Multi Ink® exactly?

Brilliant colours • High lightfastness  
 Premium pigments • Permanent

All pigment arts pens feature our innovative Multi Ink – a water-based, translucent India ink made with high-quality pigments. It combines extreme lightfastness with exceptional colour brilliance, ensuring no fading or colour change, even after years of exposure to light. Once fully dry, the ink allows smudge-free overpainting, is permanent and waterproof, with no bleeding or show-through on paper. Fast-drying and highly versatile, it performs beautifully on all types of artist paper and almost any surface, making it ideal for mixed media techniques.

Multi Ink Competing inks  
 after several years of UV exposure

Multi Ink Competing inks  
 green over black (10 sec. drying time)

Permanent & waterproof

Multi Ink  
 durable and water-resistant

No bleeding & no ghosting

Multi Ink  
 not visible on the back of paper

Multi-surface

Multi Ink  
 works on almost all surfaces

Felix Scheinberger, an inspiring illustrator and author from Berlin, stands out thanks to his lively pieces of art and impressive teaching methods, which often focus on urban scenes and characterful figures. One of his favourite tools is the STAEDTLER pigment brush pen, with which he brings his works to life.

line width

« The premium pigments ensure long lasting colour with excellent lightfastness. »

## pigment soft brush pen 372

- Premium India ink pens with soft brush tip and the innovative Multi Ink
- Stable brush nib
- For particularly variable line widths
- Ideal for hand lettering, sketches, drawings, and illustrations – especially for adding depth and shading
- Multi Ink – water-based, translucent India ink made with high-quality pigments, combining a variety of outstanding properties
- Extreme lightfastness and exceptional colour brilliance simultaneously – no colour change and no fading, even after years of exposure to light
- Lightfastness of each colour classified in accordance with blue wool scale and grey scale (DIN EN ISO 105-B01, DIN 16525, DIN EN 20105-A02)
- Smudge-free overpainting once the ink has fully dried
- Ink does not bleed or show through the paper
- Highly versatile – suitable for all types of artist paper and almost all other surfaces
- Fast-drying and retains true colour on almost all surfaces
- Particularly suitable for mixed media techniques
- Permanent and waterproof
- Made in Germany
- Available in 6 colours
