

making models

Maths, Engineering and Art Activity!

What you'll need:

Staedtler stick pens

Staedtler coloured pencils

Staedtler scissors

Staedtler glue stick

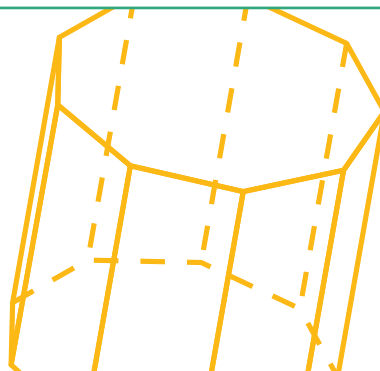

A printout of the supplied worksheet

Instructions:

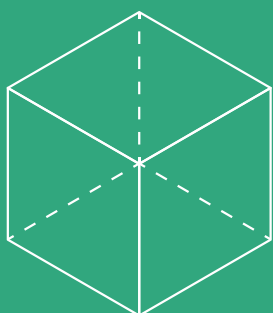

1. Print out the supplied work sheet single sided.
2. Using the supplied activity worksheet, name the 3D shapes and answer the questions about the corresponding shape.
3. Using the 3D shapes and names as a guide, match the 3D nets with the correct shapes.
4. Once you have matched your 3D nets to the correct shapes, you can build the 3D shape yourself.
5. Select a 3D net from the supplied templates. Colour and cut the chosen 3D net following the dotted lines.
6. Using the **Staedtler glue stick**, paste the tabs (where stated) together and assemble your 3D shape.
7. **Bonus:** Choose a classmate and play **Can you guess the shape just by the description?** Make sure you don't tell or show your classmate your 3D shape. Quiz your classmate using the list of statements supplied with your chosen 3D shape. Once they have guessed the shape you can reveal your assembled 3D shape.

making models

Activity Worksheet

Name the 3D shape

Name: _____

Number of faces: _____

Number of vertices: _____

Name an object
this shape:

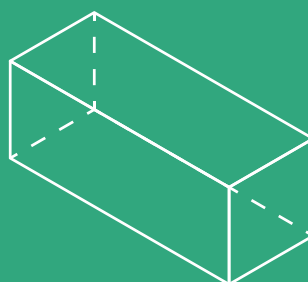

Name: _____

Number of faces: _____

Number of vertices: _____

Name an object
this shape:

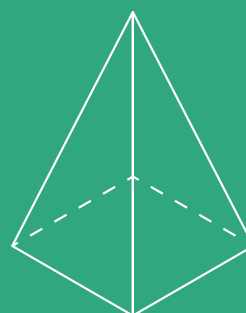

Name: _____

Number of faces: _____

Number of vertices: _____

Name an object
this shape:

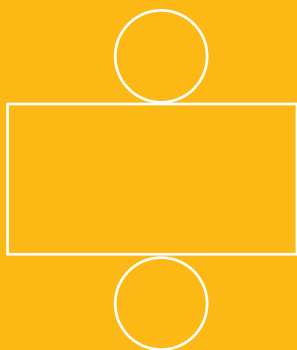

Name: _____

Number of faces: _____

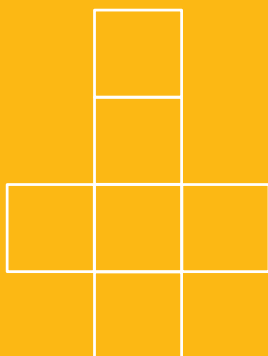

Number of vertices: _____

Name an object
this shape:

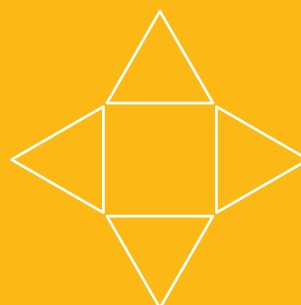

Match the 3D net with the correct 3D shapes

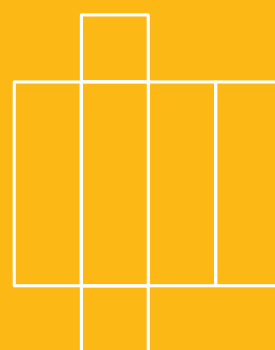

Shape: _____

Shape: _____

Shape: _____

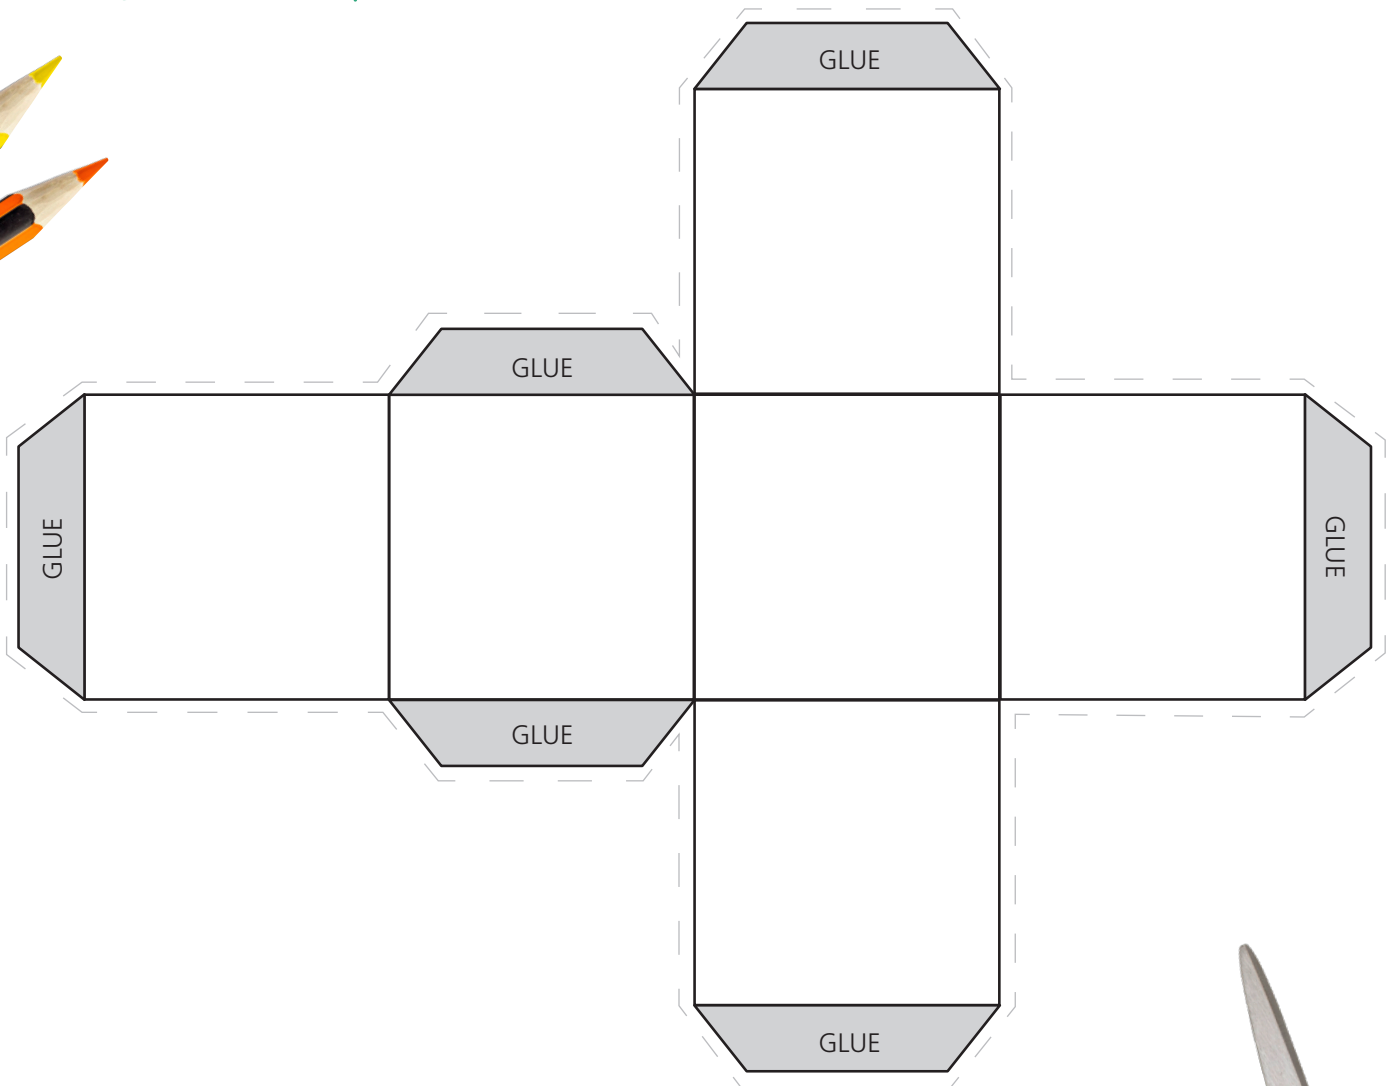

Shape: _____

making models

Activity Worksheet

Build your 3D shape

Can you guess the shape just by the description?

Test your classmate to see if they can guess your 3D shape without seeing it!

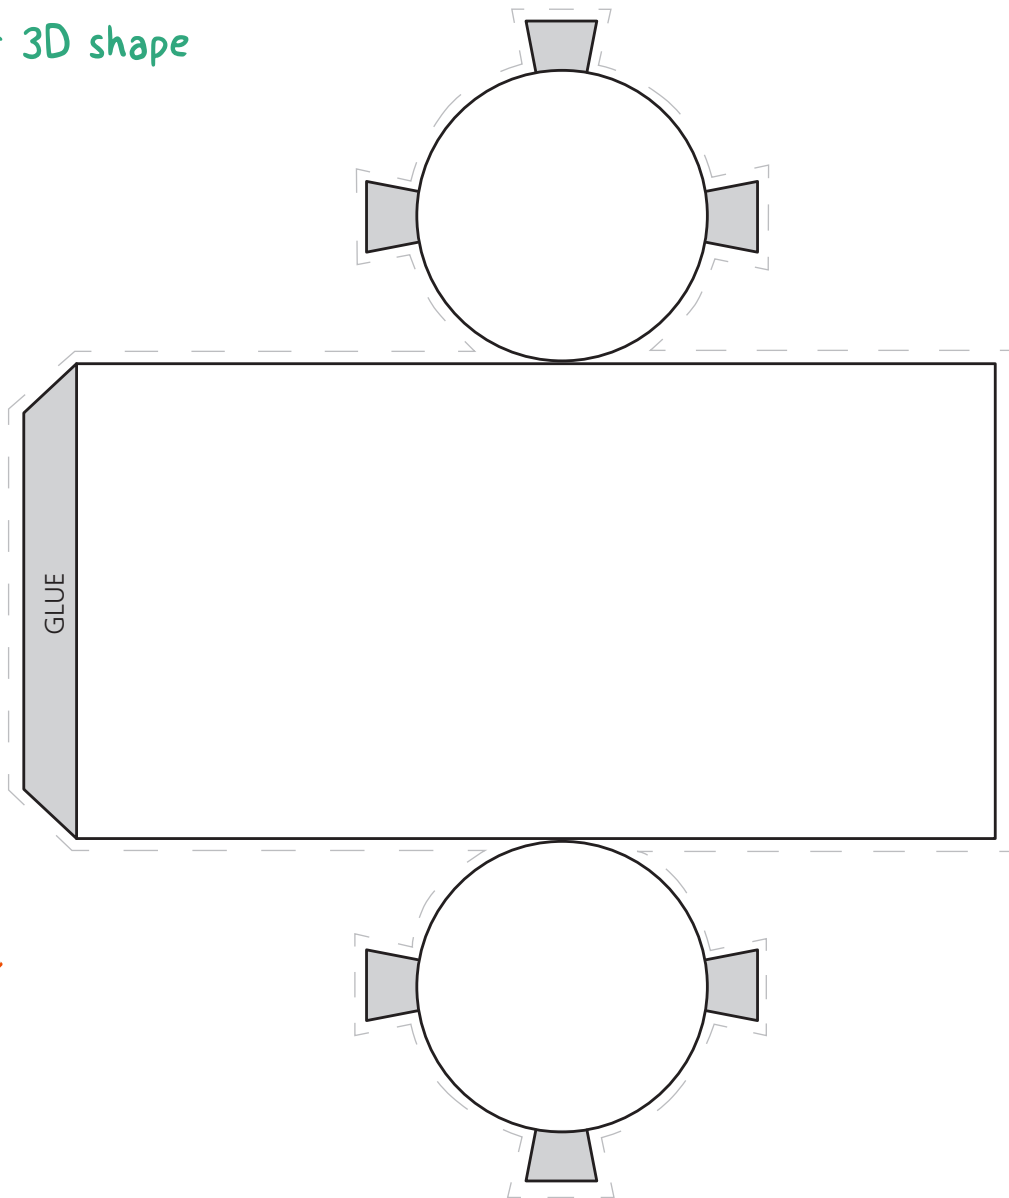

1. I have 6 faces.
2. I have 12 edges.
3. I also have 8 vertices.
4. My name is spelt with 4 letters.

Activity Worksheet

Build your 3D shape

Can you guess the shape just by the description?

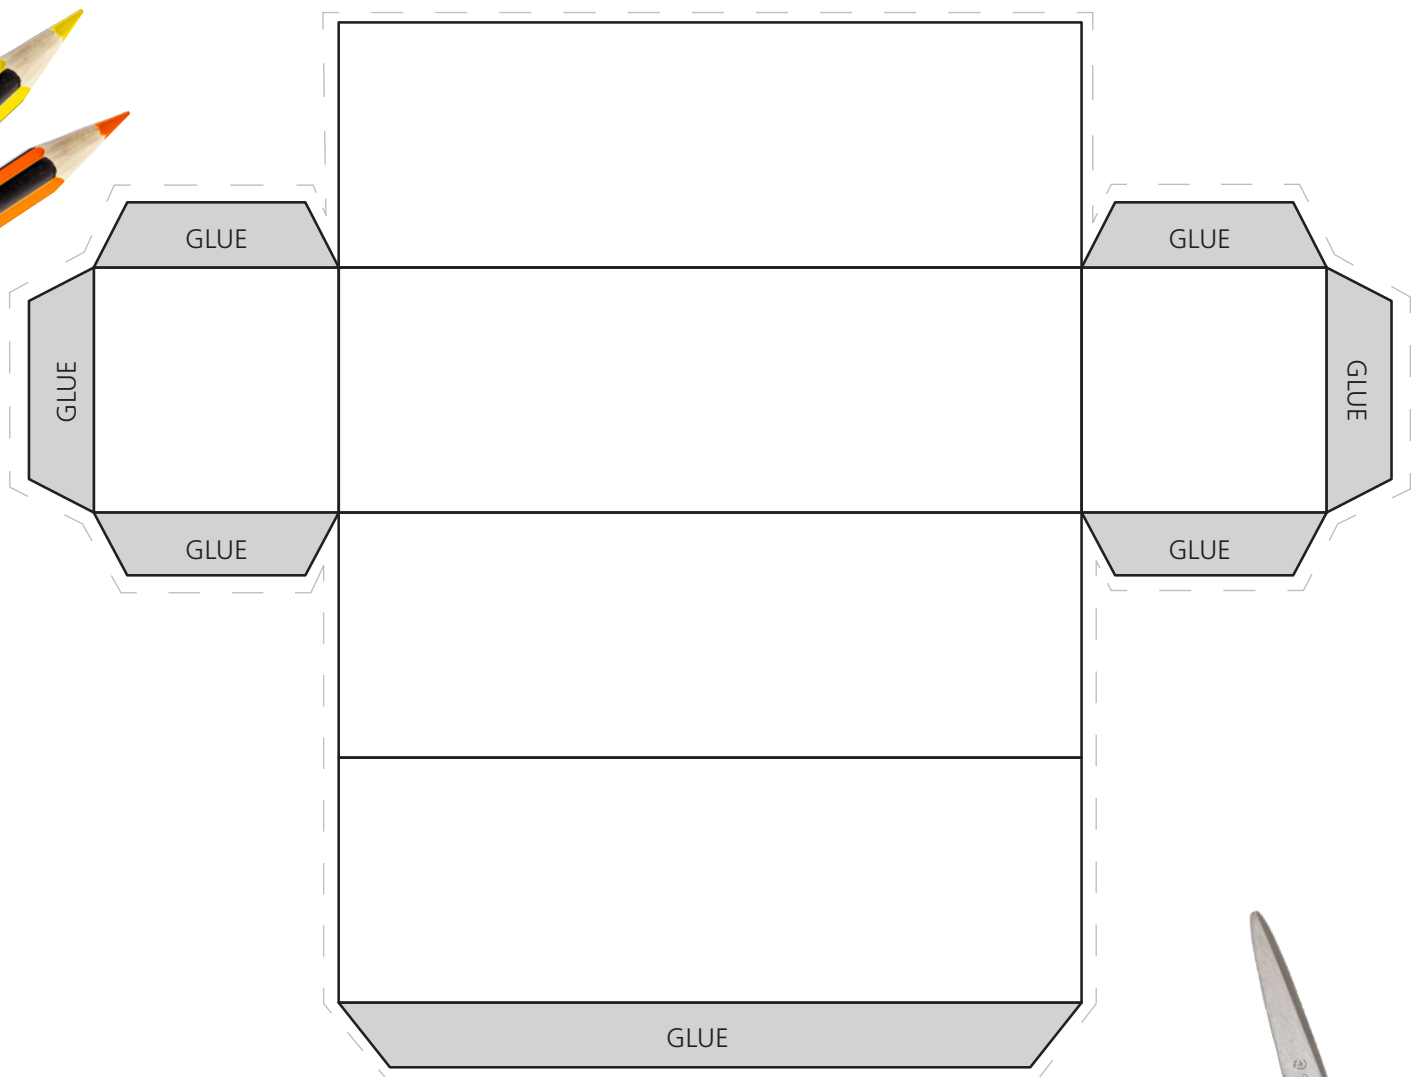

Test your classmate to see if they can guess your 3D shape without seeing it!

1. I have 3 faces.
2. I have 2 edges.
3. I also have 0 vertices.
4. My name is spelt with 8 letters.
