OUR STAEDTLER UMBRELLA BRAND

We believe in a world full of ideas...

... and that anybody can become creative with our products. Our umbrella brand communication "Release your creativity" inspires people to live every day creatively.

The idea: a piece of paper or an object is painted on using a STAEDTLER product and presented in an everyday scene – instantly making this familiar life situation a little nicer, funnier or more relaxed. The Claim "Release your creativity" speaks directly to the viewer and motivates him or her to also become creative.

Our products accompany people – from their first attempts at colouring in early childhood, to notebook entries in school, taking memos in university or on the job and their life long creativity in their free time.

This is why we address different target groups with our motifs: we motivate parents, children, teachers, hobby artists, students and professionals to recreate their daily life with STAEDTLER products.

OUR STAEDTLER UMBRELLA BRAND

The analogue world in a digital age.

At the beginning there are pen and paper. Even in a digital world many people trust established methods.

Ideas are still noted on, scribbled, designed or sketched on paper.

It is important to slow down and give your ideas some space, especially when you want to be creative and to develop or expand your ideas.

Whether it is learning how to write, summarizing content or a quick sketch of ideas: analogue writing and drawing tools bring things right to the point.

SUSTAINABILITY

The very best for our environment

Protecting the environment and people has a long tradition at STAEDTLER.

With voluntary eco standards and promising technologies we ensure that our company is sustainably responsible.

A sustainable product is not only produced environmentally friendly but offers the user many advantages, has a long service life and thus helps in reducing waste.

Producing long-lasting high quality products is the benchmark we use to align our entire production chain: from extracting raw materials to developing products and using energy to packaging our pens and pencils.

This is how we guarantee the high STAEDTLER quality and make a valuable contribution to protecting our environment.

The mark of responsible forestry

Promoting Sustainable Forest Management

www.pefc.org

Certified wood-cased pencils

All **wooden STAEDTLER pencils** are made using certified wood. Thereby STAEDTLER ensures its commitment to the environment and the responsibility of handling with wood – the essential raw material.

"Made in Germany"

Almost two thirds of STAEDTLER products are manufactured in Germany. This is good for humans and the environment as Germany has very high social and environmental standards in global comparison.

Integrated quality and environmental management systems

An integral component of our corporate philosophy and the foundation of continuous improvement of our company's efficiency are the **integrated quality and environmental management systems (ISO 9001:2015 and ISO 14001:2015)**.

Gmelina-plantation, Ecuador

Healthy growth – with Agro-forestry for our own wood supply

From selecting a tree species according to ecological and economic criteria to cultivation conditions under strict environmental standards, considering existing flora and fauna and directly processing the wood further – STAEDTLER takes the production of wooden boards for pencil manufacturing into its own hands.

In Ecuador, South America, STAEDTLER found the suitable conditions for **its own Agro-forestry**. Trees for future STAEDTLER pencils will grow on an area of around **1,500 hectares**.

Raw materials

Quality checks to ensure the suitability for our products

Customer orientation

Education about special product features and eco-friendliness

Production

Conservation of resources, energy management and continuous process optimization

Logistics / Transport

Eco-efficiency and intelligent logistics

Recycling

Waste prevention, wastewater and solvent treatment, recycling in the manufacturing process

Packaging

Economizing and high practicality

Product ecology

Health safety and compliance with environmental criteria even during product development and when using harmless ingredients

Working environment

Apprenticeships and job training as well as active protection against pollution and noise pollution, social charter – incl. committing to our supply chain

DESIGN JOURNEY ASSORTMENT

Welcome to the natural environment for creative ideas.

For all who are wild at heART. For those who love the wild nature. Love to journey, to discover, to try things out. The new design journey assortment.

Come enjoy the solitude of North America's national parks – the source of inspiration for our new Design Journey product line.

Start your own journey and discover our diverse creative products which will help you capture an art form that will lead deep into the adventures of North America's national parks. We are curious where it takes you, aren't you?

DIY is trending.

Releasing your creativity means realizing crazy ideas and creating your own individual style. It could also mean leaving behind your busy day-to-day schedule for just a moment or immersing oneself in the complete calm of creative expression for a few hours.

More and more people, young and old, are discovering the relaxing power of drawing, painting and calligraphy.

STAEDTLER accompanies them on their path to artistic expression and provides them with the tools they need with the new Design Journey product line: The line ranges from graphite and coloured pencils over fibre-tip pens, fineliners and metallic markers, to crayons and paints and important accessories to make the journey even smoother.

Additional to the products, the concept is complemented by valuable tips on technique that make it surprisingly easy to make even first drafts come alive. These tips can be found in the form of tutorials and creative tips both online and offline.

MARS LUMOGRAPH ASSORTMENT

Mars® Lumograph® – a product with tradition and potential.

The pencil is closely connected with the history of our company. As early as 1662, Friedrich Staedtler was mentioned for the first time in the official records of Nuremberg as a pencil maker.

Johann Sebastian Staedtler founded the company back in 1835. Since this time, our unmistakable pencils have been renowned throughout the world. We remain true to our tradition and are now manufacturing almost three quarters of our products in Germany. From here, we export our painting, writing and drawing products to more than 150 countries, and we are one of the world's leading manufacturers of creative products.

With its classic design Mars Lumograph stands for our brand and our way of merging tradition and innovation.

E. Peukert, Nuremberg Castle

Wood is the core of our Mars Lumograph pencils.

It goes, therefore, without saying that we only use wood from certified, sustainably managed forests for the manufacture of all our wood-cased pencils.

By operating our own plantation in Ecuador, STAEDTLER invests in our future. Thus, we create new jobs, are independent of suppliers and considerably improve our global CO2 balance.

Range extension.

We are constantly expanding our range and in doing so we attach the highest importance to innovation, quality and benefits for our customers.

Proven products and innovative novelties await you!

Discover our pencil range for visual and graphic artists, illustrators and professional draftsmen.

Our **STAEDTLER Mars Lumograph series** is available in various types and degrees of hardness.

TRIPLUS ASSORTMENT

triplus®

the **ERGONOMIC** writing family

ergonomic triangular shape

 **triplus®**
the ergonomic writing family

Outstanding product features and superior writing performance.

When talking about triplus, we are talking about products with outstanding product features as well as a meticulously composed product family following a defined set of values and hence providing a whole range of advantages for the user.

With the exception of the mechanical pencil (774), all triplus pens are manufactured in Germany to ensure a consistently high quality. All pens of this range convince with their ergonomic shape, which allows for easy, relaxed writing without fatigue: the triangular shape of the assortment naturally fits the fingers' grip and hence promotes a natural writing posture. This significantly increases user-friendliness of the products and a longer writing time without any strain is possible. The **DRY-SAFE-technology** allows for a high product reliability as the pens can be left uncapped for several hours or even up to days without drying up. So even when one forgets to put the cap on from time to time, the pens will still be performing optimally.

The triplus product family is popular for its diversity.

User-friendliness is further increased by the large variety of products offered within the triplus family. Currently, the assortment comprises **nine different writing technologies**: ranging from the well-known and beloved triplus fineliner and triplus colour over the ballpoint pen, rollerball, mechanical pencil and the highlighter, to the newer members of the family being the triplus broadliner, gel roller and the fineliner permanent. Hence the assortment offers the perfect pens for writing, drawing and sketching, for everybody who is conscious about superior writing performance.

triplus® fineliner 334 for

superfine writing

The campaign highlights the area of application for each pen.

The ergonomic writing family

The campaign „triplus® the ergonomic writing family” brings the many advantages of the product family and its individual members to light – without being too instructive or too technical. The campaign sparks curiosity and the desire for a better product experience by promoting the main unique selling proposition of each writing technology included in the family.

334 Fineliner

331 fineliner permanent for **superfine writing on various surfaces**

323 fibre-tip pen for **brilliant colours**

774 mechanical pen for **precise graphite writing**

462 gel roller for **quick drying ink**

437 ballpoint pen for **smooth writing**

403 rollerball for **heavy-handed writers**

362 highlighter for **fine and broad highlighting**

338 broadliner for **extra broad writing**

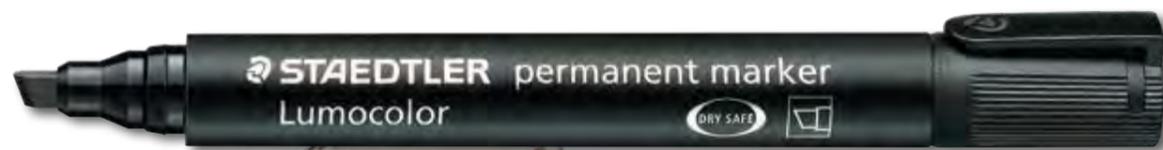

Perfect writing instruments of the highest quality.

What is true for our whole assortment is of course also true for our Lumocolor products: **no compromise on quality.**

So, whether one wants to label a metal plate or a DVD, or mark a piece of wood, we can always guarantee optimal results, which will remain visible for a long time thanks to the high UV resistance.

Because our quality standards are the basis of our success.

Our time proven Lumocolor assortment and its universal pens have stood for excellent product quality for more than 60 years - worldwide. In over 100 countries, we daily facilitate excellent writing and marking results on almost all surfaces. **In Germany we currently have a market share of 70%**, and our title as the largest European manufacturer of universal pens also speaks for itself.

↖ Lumocolor permanent marker

WRITES ON WOOD, GLASS, CARDBOARD, LEATHER, METAL, PLASTIC AND MANY MORE MATERIALS!

Holding on to good ideas.

Because ecology is more than just a word to us.

We manufacture our Lumocolor range in Germany to assure high quality and innovative strength. Thus, the barrel and cap of our Lumocolor products are made from polypropylene which ensures a long service life. Together with our Lumocolor refill ink, which is available for many of our Lumocolor products, they will become long-term companions. We highly value this longevity because what lasts longer must only be replaced much later.

And because innovation is our driving force.

Several of our Lumocolor products feature the innovative DRY SAFE-Technology. Everybody knows the issue: on one side, we want the ink to dry fast on surfaces but on the other side, we do not want the pen to dry out if we forget to put the cap back on. When finding a solution to this problem, we were inspired by nature. Many fruits and leaves protect themselves from drying up with a wax film. We have applied this principle to our products which not only increases the longevity of the products but also allows to leave the pens uncapped for days without any quality loss.

Broad & fineliners

pigment liner 308

Fineliner

- Fineliner for writing, sketching and drawing
- Pigment ink, indelible (in accordance with ISO 14145-2), lightfast, waterproof on paper
- CAP OFF - can be left uncapped for at least 12 hours without drying up (only black ink)
- Erasable when used on drafting paper, no bleeding when high-lighted
- Long metal tip, ideal for use with rulers and templates e.g. Mars 572 FL
- PP barrel guarantees long service life
- Airplane-safe - automatic pressure equalization prevents pen from leaking on board aircraft
- Available in stand-up STAEDTLER box

Highlighters

PRIORITIES

- ☐ list your assignments by time needed, due date, or any other topic
- ☐ Start with your #1 assignment; if you get tired, work on the other ones as a productive study break!

STUDYING

HOW-TOs, P... & TIP

In typical hour of studying...

- not studying but still productive
- study breaks (stretch, nap, etc.)
- actual productive studying

What Worked for me

...assignment/exam, get started early! Don't wait
 ...if you have questions, or don't understand
 ...ask your professor! It'll show that you
 ...and leave a good impression.
 ...don't get something the first time you
 ...my best essays took 5 drafts to get right!
